Virginia - Fairfax County Citizens Corps: Community Emergency Response Team (CERT 1) program

Wendy Stanley has an extensive and diversified background in aviation, human resources and education. Ms. Stanley is a former regional airline pilot and certified flight instructor, and she has lead and performed in various functions in human resources, training and in education. The solid experiences gained in Aviation and Corporate America have allowed Ms. Stanley to apply her technical knowledge, operational expertise and people skills among many industries.

Ms. Stanley is experienced in strategic planning, project management, contract administration, audits, training and development, and emergency response planning. While working in consulting, she has supported projects conducted by the Federal Aviation Administration (FAA), which included rulemaking support, as well as organizational restructure and development. Ms. Stanley has developed training for Safety Management Systems (SMS) in compliance with the FAA and the International Civil Aviation Organization (ICAO). She has trained various companies and organizations to include the National Transportation Safety Board (NTSB) and the Federal Aviation Administration (FAA) on hazard identification techniques, safety risk assessments, safety assurance, safety promotion and policies, as well as the use of technology to support SMS goals.

She has also developed training in Emergency Response for both the Investigation Team as well as for station management at local airports. She has been instrumental in leading and managing the oversight of emergency response planning in a Part 121 regional airline. Ms. Stanley has conducted audits of local stations' emergency action plans and formulated corrective action plans to be in compliance with federal regulations.

In addition, Ms. Stanley is trained in the areas of Safety Management Systems (SMS), Systems Safety, Aircraft Accident Investigation, Human Factors, Industrial Safety Management and Transportation Security.
